

Endotest Ordering – Carton Sizes

The Endotest products are manufactured and packed based on the Collection pot insert size

3 Sizes available – 8-14mm, 4-8mm and 1-4mm

Manufactured cartons contain 6 Collection Kits

Endoworx staff complete the carton pack off dependent on the Endotest Microbiological sample kit required by the customers scope model. IE Olympus Col or Gas scopes = order code 727-ET2801

Once an order is received the cartons containing the collection pot size are opened and completed by collating the 120ml collection set with the correct scope accessory kit required to make up the finished order code IE: 727-ET2801 is made up of ET2084 8-14mm Pot, ETAK01M Accessory kit

When orders are customers can mix the kit numbers to make up the carton of 6

IE: if ordering product for 8-14mm Scopes Col/Gas, Duodenum or Dual scopes

3 x 727-ET2801 – Col/Gas

2 x 727-ET2804 – Dual

1 x 727-ET2815 – Duodenoscope
