

Endoworx Endotest V2 Product 2025 -2026

Price list is set up per scope diameter sizes. We carry 3 size kits in a number of scope compatibilities. **Kits are despatched in cartons of 6**

8-14mm Pot kits for large diameter scopes, predominately col and gas scopes

4-8mm Pot Kits for a selection of scopes such as bronchs, cystos, intubation and some slim line gas scopes

1-4mm Pot kits for small diameter scopes

Each kit is supplied with all items required to test 1 scope and each kit is 1 use only. All items are sterile

Each kit comes with:

- Collection Pot (scope diameter dependent)
- Accessory Kit (scope dependent)
- Brushe(s) (channel and/or tip)
- Micro Bag for lab delivery

Codes we use represent the type of kit. To help understand our codes see below

New Kit Code Eg.	IE: 727-ET2801	ET2	Stands for Endotest V2
		8 or 4 or 1	Stands for Pot size (8 = 8-14mm, 4 = 4-8mm, 1 = 1-4mm)
	** R denotes 1.5mm Brush	01 or last 2 digits	Stands for Accessory kit code (01 to 49 = Olympus Kits)
	** L denotes 5mm Brush		Stands for Accessory kit code (50 to 79 = Pentax Kits)
			Stands for Accessory kit code (80 to 100 = Storz, Fujinon Etc)

Note: Carton supply size is 6 (six). Order in multiples of 6 mixing any stock code number to make up the required quantity.

Refer to scope compatibility list for kits available, also available on our [Web page Endoworx.com.au](http://Endoworx.com.au)

If you need further help please contact us at any time

ORDER QUANTITY MULTIPLES of 6 UNITS (6 being minimum). Cartons can be made using a mix of any Endotest stock code.

8-14MM ENDOTEST V2 SCOPE SAMPLING KITS

Each kit is supplied with a 120ml collection pot, accessory kit, brush & microbiological bag, please refer to separate scope compatibility list for correct order code
